

Document Management System

AI THAT WORKS FOR YOUR DOCUMENTS

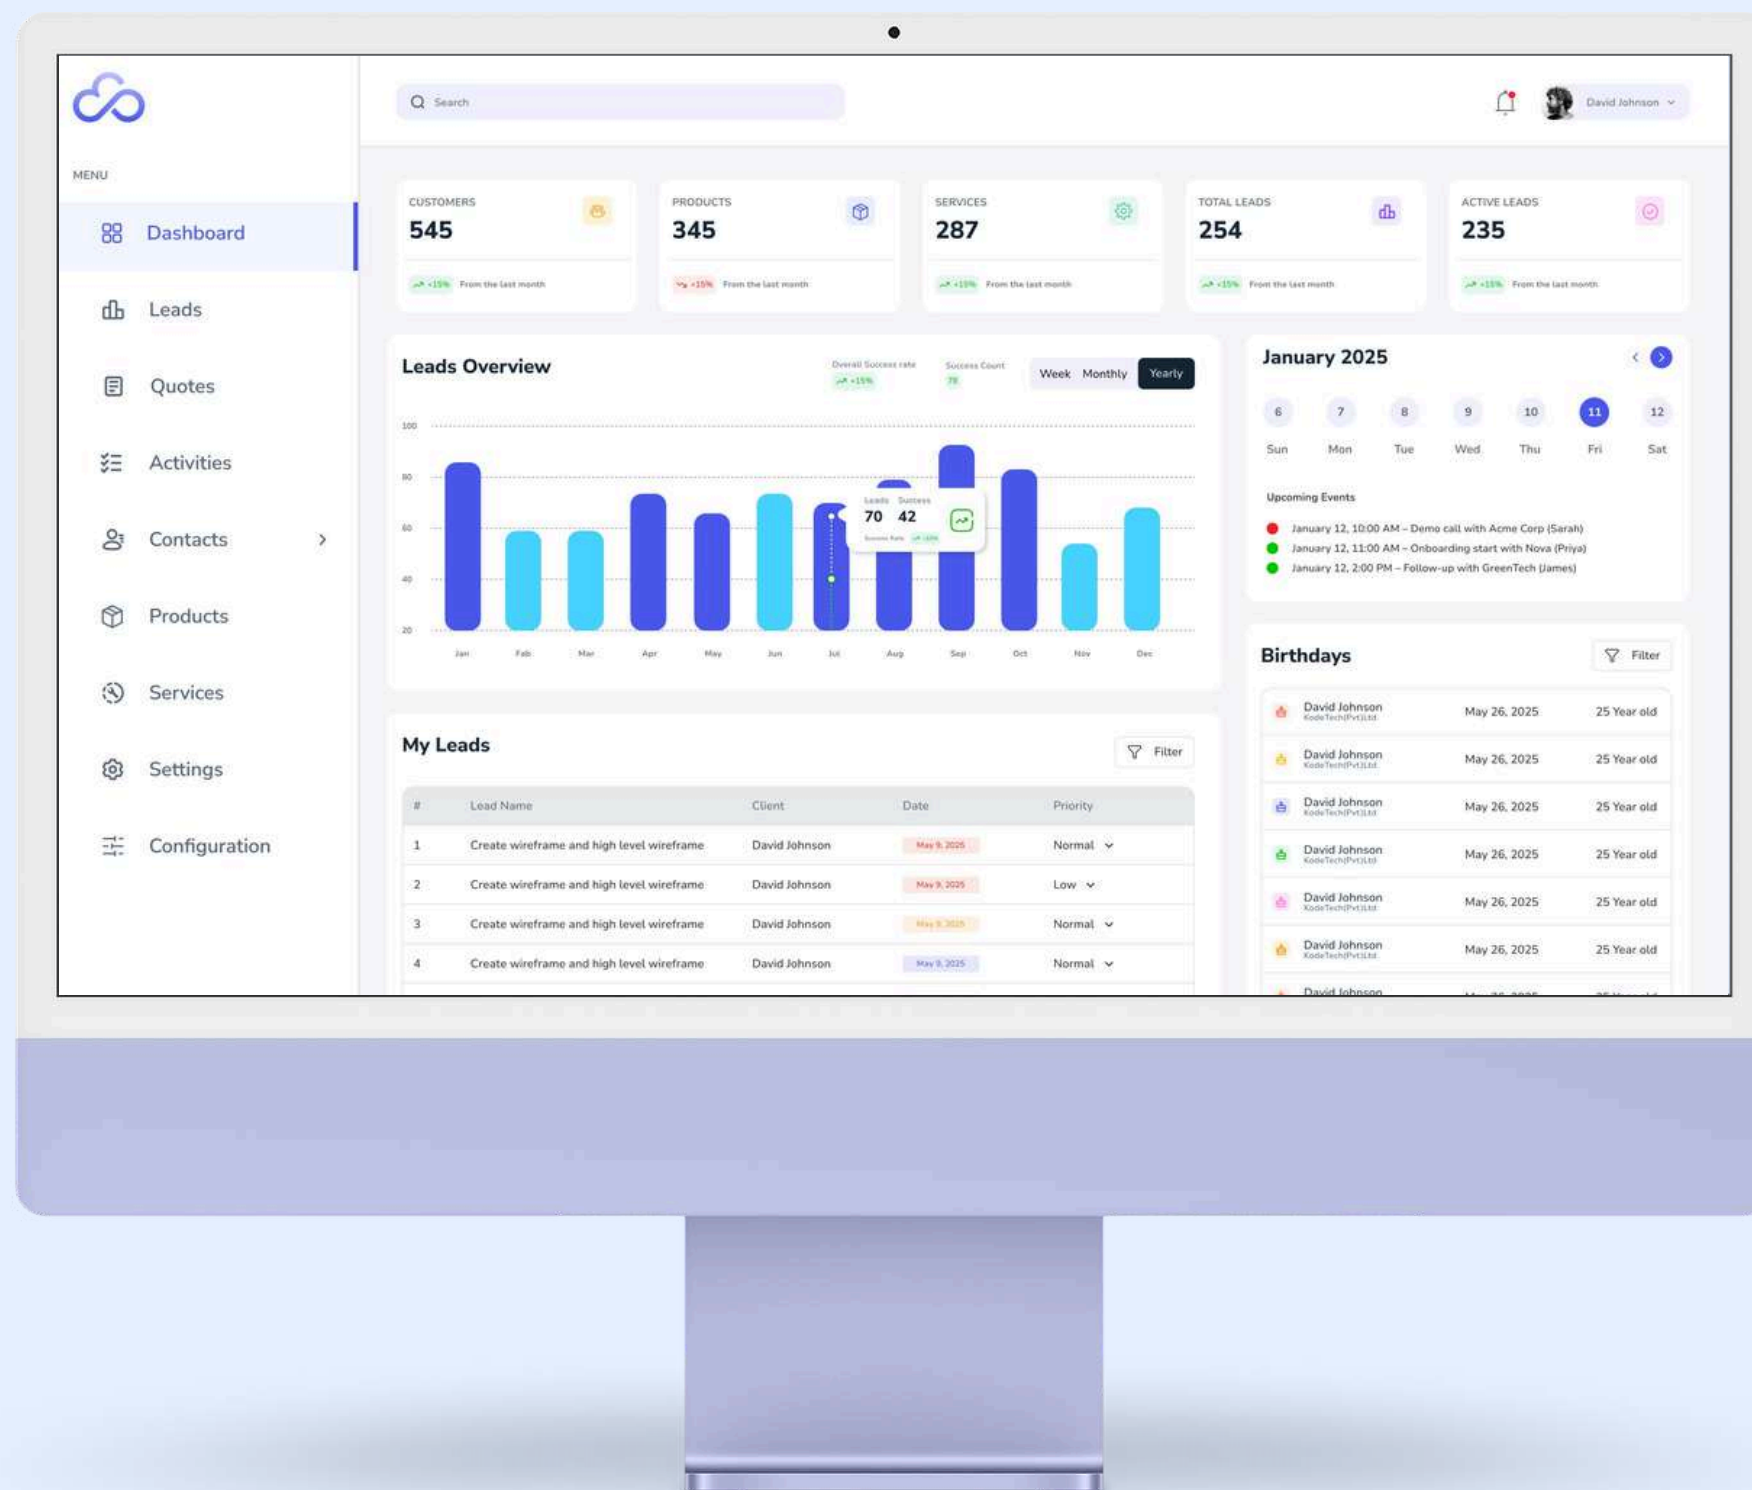

- **Smarter Work with AI** – Ask questions about documents and get answers, along with instant document summaries powered by AI.
- **Effortless Document Search** – Quickly find exact documents and search within document content using deep search and instant previews, all in one place.
- **Secure and Seamless Collaboration** – Collaborate securely with controlled, password-protected sharing.
- **Industry-Standard Security & Monitoring** – Compliance-ready security with full audit trails and enterprise-level security standards.

Customer Relationship Management System

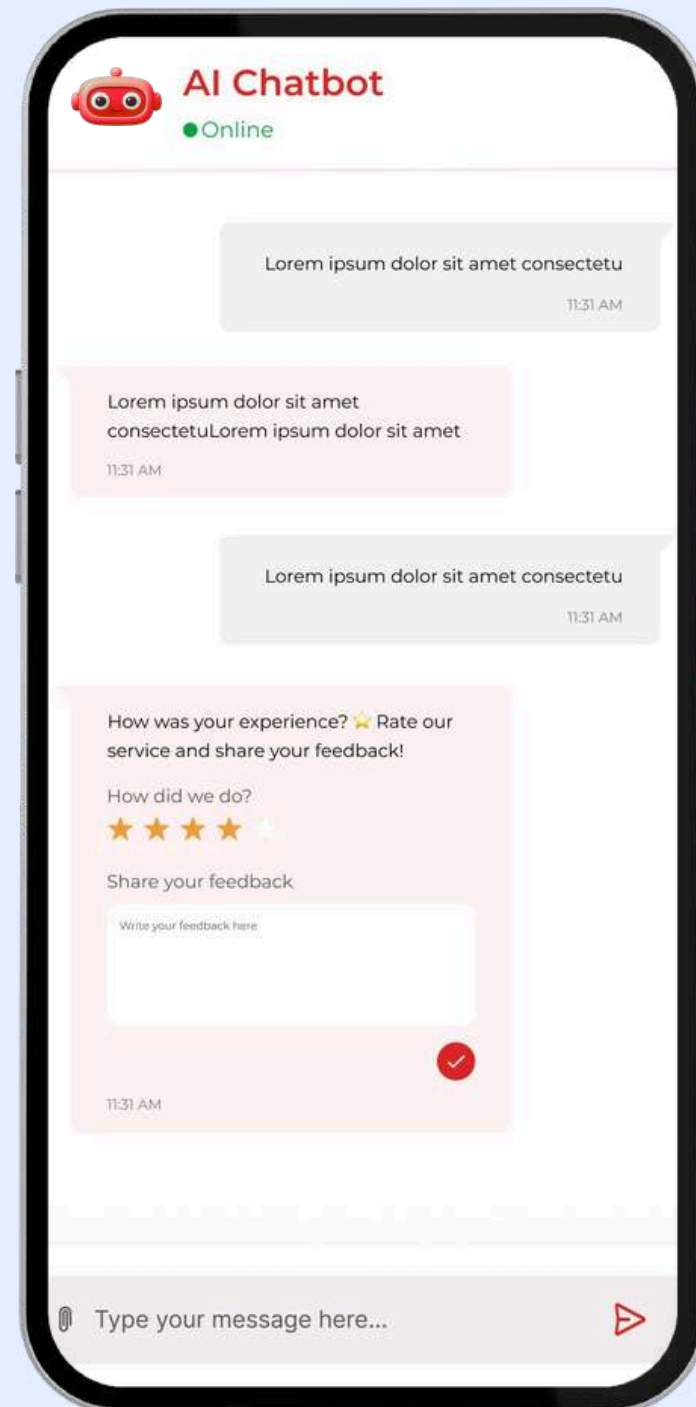

INTELLIGENT SALES MANAGEMENT

- **AI-Powered Lead Capturing** – AI-driven lead capture that helps collect all potential leads without missing a single opportunity.
- **Streamlined Processes** – Sales automation that streamlines tracking, follow-ups, and deal closures. This helps improve business growth and efficiency.
- **Advanced Analytics and Reporting** – Real-time analytics that reveal sales trends and performance insights, helping you make smarter decisions.

AI - Based Chatbot Solutions

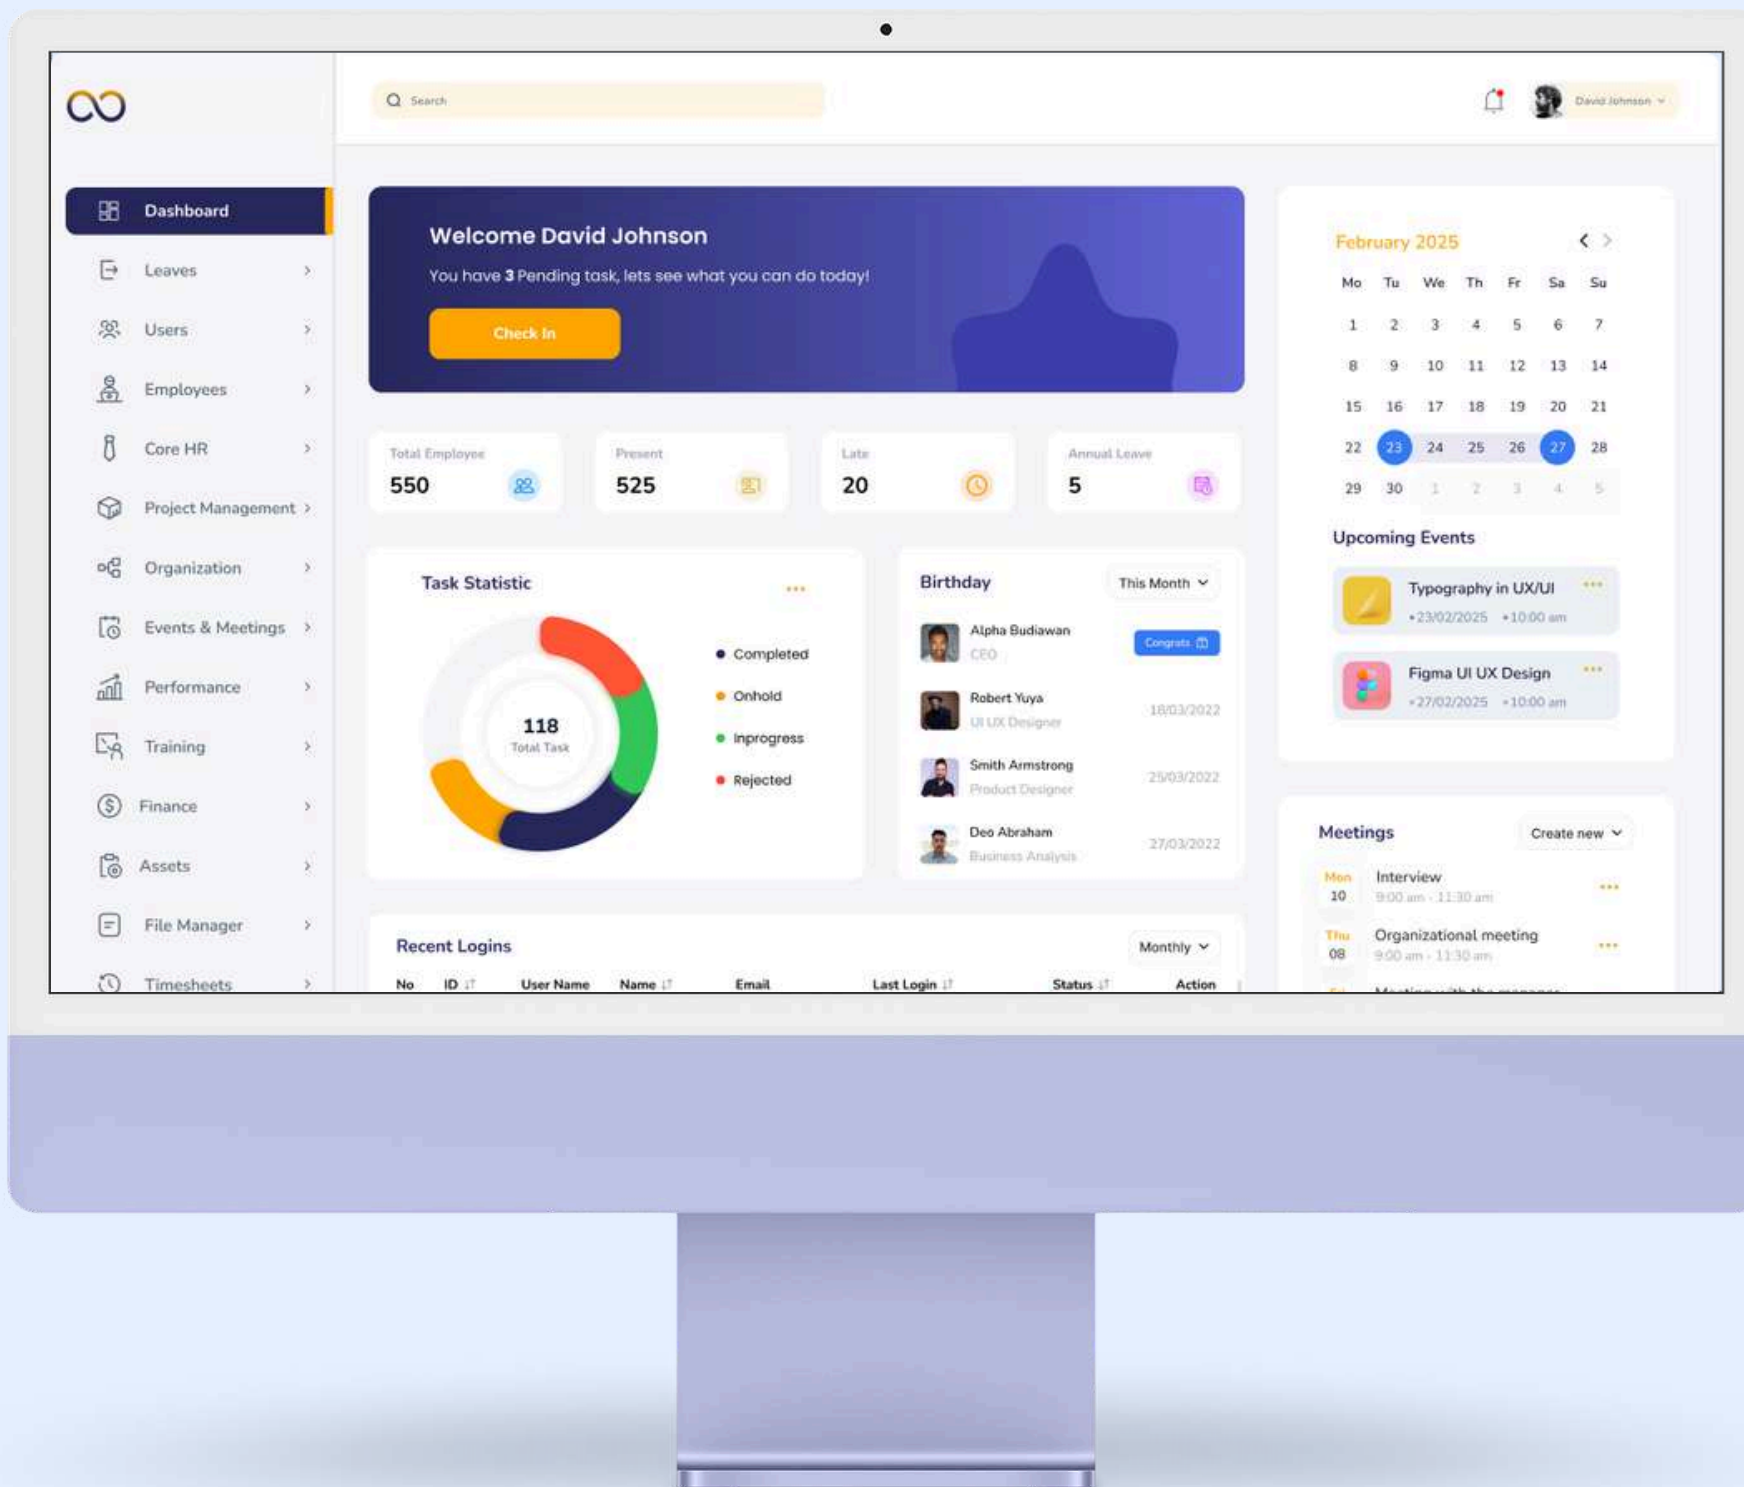

INTELLIGENT CUSTOMER ENGAGEMENT

- **Personalized Experiences** – AI enables personalized responses and follow-up questions that boost customer satisfaction.
- **24/7 Support, No Limits** – Generative AI chatbots deliver instant, unlimited, automated support 24/7 while reducing operational costs.
- **Omnichannel Presence** – Connect your chatbot to Facebook Messenger, Instagram, and WhatsApp to reach customers everywhere.
- **Seamless Integration** – Seamlessly integrates with CRM, ERP, and eCommerce systems for smooth automation and transforms your existing solution into a smarter solution.

Human Resource Information System

AI-DRIVEN TALENT INTELLIGENCE

- **Smart Recruiter** – AI-powered recruitment that instantly searches thousands of CVs to identify the most qualified candidates.
- **Streamlined Processes** – An automated HRIS that simplifies payroll, attendance, and leave management, saving time and reducing errors.
- **Simplify Employee Management** – A centralized system that manages employees, roles, and shifts for efficient coordination.
- **Track Performance & Assets** – Integrated tools that track performance and assets, delivering actionable insights for better decision-making.

Custom Solutions

BUILT AROUND YOUR BUSINESS

We identify operational pain points and design tailor-made solutions to address them. Whether enhancing your existing systems or building a fully customized solution from the ground up, we help you increase efficiency, improve quality, and boost organizational productivity.
